## CANADIAN TRADE WITH AUSTRALIA

### SUGGESTED CONFERENCE OF REPRESENTATIVES

It is Probable That Several Changes Will Be Made in the Commonwealth Tariff.

(Special to the Times.)  
Ottawa, Dec. 4 (delayed in transmission).—A report from Canada's commercial agent, J. S. Larke, at Sydney, Australia, is received. He says that while the Commonwealth government was sustained in its policy, intimations were given of changes yet to be made to the tariff. Premier Barton, in referring to a reciprocal trade agreement with Canada, said that a good many matters would have to be received from an authoritative source. Some information would have to be had as to the goods which should have the benefits of a preferential tariff. The recent experience of Canada in connection with Germany was not, Mr. Barton thought, very encouraging. There was a suggestion that a conference of representatives of Australia, Canada and South Africa should meet at the time of the coronation. He feared, however, that such occasions were not favorable to the holding of a conference of that kind.

### THE BRIGANDS' CAPTIVES.

Dr. Haskell Unable to Obtain Information Regarding Miss Stone and Mme. Tilkka.  
(Associated Press.)  
New York, Dec. 5.—Rev. Henry C. Haskell, D. D., superintendent of the board mission at Sanitkar, Bulgaria, has sent the following cable to the World regarding Miss Stone and Mme. Tilkka:

"There has been no result as yet from our efforts to ascertain the truth about reports that Miss Stone and Mme. Tilkka are dead. In the present weather, with the snow many feet deep on the mountains, travelling there is slow and dangerous, and I do not expect definite information for two or three days. It is denied that they are in the Rilo monastery."

### OFFICERS FOR THE MOUNTED CONTINGENT

The Staff Which Has Been Selected by Colonel Evans to Go to South Africa.  
(Special to the Times.)  
Ottawa, Dec. 5.—Col. Evans has selected his staff. The complete list is as follows: In command, Col. Evans; second in command, Major Hamilton Merritt; adjutant, Sergeant-Major Church; mounted police, Regina; quartermaster, Quartermaster-Sergeant J. Graham, of the Winnipeg Mounted Infantry; medical officer, A. J. Devine, A. M. S. Winnipeg; veterinary surgeon, R. Riddell, Calgary. The list has been sanctioned and forwarded to the war office. Its approval is a mere matter of form. The Imperial authorities have cabled that they will send a British troopship to Canada for the mounted infantry. It has been practically decided to mobilize the troops at Halifax.

### PRINCE HENRY FORGIVEN.

Queen Wilhelmina and Her Husband Are Now Frequently Seen Together.  
(Associated Press.)  
Amsterdam, Dec. 5.—With the view of allaying public indignation and excitement, semi-official intimations have been circulated to the effect that Queen Wilhelmina has forgiven her husband, Prince Henry of the Netherlands, the suggestion being that the public ought to follow suit.

As cabled to the Associated Press at the time, Prince Henry returned to the Netherlands on December 2nd, since when the couple have been dining together and gradually resuming normal relations. Yesterday they walked together and afterward drove through the castle park. The relations between Prince Henry and the members of the court are, however, very strained. The former cordiality has been replaced by an attitude of rigid politeness on the part of the Prince Consort, and apparently the gentlemen of the court are equally disposed to gloss over recent occurrences.

### LIVE STOCK ASSOCIATION.

The Convention Is Now Being Held at Chicago.  
(Associated Press.)  
Chicago, Dec. 5.—When President Springer called the convention of the National Live Stock Association to order to-day he said the programme for the day was one of exceptional interest to cattlemen. The programme called for papers from Dr. A. H. Senter, of New York; Prof. Andrew H. Soule, of the Tennessee Agricultural College; Hon. F. E. Warren, of Wyoming; A. P. Doremus, state engineer of Utah; and Col. G. W. Simpson, of Texas. Mr. Soule's paper telling of the cattle business in the middle states was the first one heard by the convention.

### STEAMER MISSING.

The Discovery Overdue on Return Trip From Valdez—Search Instituted.  
(Special to the Times.)  
Vancouver, Dec. 5.—Steamer City of Seattle, arriving last night, brought news of the disappearance of the steamer Discovery from Juneau. The steamer runs to Valdez, and was a week overdue on the return trip. She may have been caught in the early ice. The steamer Eliza Thompson, of Seattle, arrived at Juneau on Friday from Valdez, having seen nothing of the Discovery. She was immediately chartered to return in search of the missing steamer.

Capt. Dordrecht, one of the Seattle's passengers, was the first man coming out from Dawson in fourteen days. The river was open in several places, but he heard nothing of the White Horse floods.

## EXCHEQUER COURT TO SETTLE CLAIM

### ARISING OUT OF THE ALL-CANADIAN RAILWAY

Messrs. Mackenzie & Mann Want the Government to Pay \$302,717 and Interest.  
(Special to the Times.)  
Ottawa, Dec. 5.—The claim of Messrs. Mackenzie & Mann, which arose out of the proposed Yukon railway, is to be referred to the Exchequer court. An order-in-council has been passed referring the amount, which is \$302,717, to the court for its decision as to what ought to be paid.

After the gold discovery in the Yukon the Dominion government made a contract with Messrs. Mackenzie & Mann to build an all-Canadian railway to connect with the waterways leading to the Dawson mining region. This contract was subject to the ratification of parliament. The House of Commons passed a bill ratifying the contract, but the Senate rejected it. Meaning Messrs. Mackenzie & Mann purchased a large quantity of supplies and made other arrangements to go on with the work. They claimed a claim to the government to be repaid for their expenditures in this connection. Some of the material that was purchased, the company said, and they ask the difference of what they were out from the government, and they for whatever work they did and material they had on hand for which they got no return. What they ask is, as already said, \$302,717 and interest.

The Premier announced last session that the court would decide how much ought to go to Messrs. Mackenzie & Mann for this work.

Had the all-Canadian route been built, Canada would not now be at the mercy of the United States, as far as trade goes in the Yukon, and they would be no talk of a revolution at Skagway to capture British territory in that country. Instead of building up American cities on the Pacific coast there would be cities situated in Canadian territory if that contract had gone through.

Sir Charles Tupper first approved of it, but for political purposes afterwards was willing to sacrifice the Klondike.

## NELSON SAVED BY THE WALLA WALLA

### TOWED INTO ANGELES BY THE 'FRISCO LINER

All of Her Crew Are on Board—Big Salvage Claim Will Be Laid Against Her.

An alarming dispatch from Astoria, referred to in the marine news in another column, that the ship Nelson had turned turtle off Astoria and that the crew of 28 men had been drowned, proved to-day to be totally false. Early this forenoon the San Francisco boat, Walla Walla, was reported from Otter Point towing a disabled ship, and notwithstanding the reported turning turtle of the Nelson, marine men in the city were of the opinion that it might be her. This was confirmed later in the day, when the Walla Walla put into Port Angeles, and in response to dispatches sent by the Times, a report was received that the wrecked ship was the Nelson, and that her crew were all aboard, and safe.

The dispatch received by the Times was as follows:

"Ship Nelson, grain laden from Portland, Ore., which was wrecked away from the tug Tatosch off the mouth of the Columbia river during the recent gale and was supposed to have turned turtle in the terrific hurricane which prevailed, was towed here this afternoon by the steamship Walla Walla, from San Francisco for Victoria. The vessel shows a bad list, her rigging is broken up, and from appearances she is in a waterlogged condition. As a result of this lucky pickup, Capt. Hall and his men have earned for themselves a neat Christmas present, for the vessel and cargo found in distress are easily worth \$300,000, and a healthy salvage claim will soon be filed against the Nelson.

The Nelson, being a British ship, certain legal advantage are said to be derived through towing her to an American port, and hence the reason of the Walla Walla going to Port Angeles instead of coming on to Victoria, her destination. The vessel is owned by Shaw, Saville & Company, of Liverpool. She is an iron ship, having been built in 1874 by R. Duncan, Glasgow. As stated in another column the Lorne received orders early this morning to hold herself in readiness to go in search of the vessel, but these orders were later in the day countermanded, when it was learned that the Walla Walla had the ship in tow. Knowing that in such cases about one-third of the ship's value is usually obtained as salvage, and that consideration of this goes to the crew of the rescuing steamer, Capt. Butler, of the Lorne, feels that he has lost an opportunity of a lifetime.

### CONDUCTOR'S DEATH.

He Was Run Down and Killed by a Pull Engine.  
(Associated Press.)  
Chicago, Dec. 5.—While guarding the lives of passengers in his trolley car, Conductor Michael J. Busworth, of the South-Halsted street line, lost his life at a grade crossing. The car, northbound, was crowded with people going to the stock show. As it approached the Grand Trunk track at 40th street, Dunwoody ran ahead to see if the way was clear. A passenger train was approaching from the east. While he was still swinging the danger signal a switch engine, approaching from the west, ground him to death in sight of the horrified passengers on the car.

### BARK IN DISTRESS.

(Associated Press.)  
Bridgeport, Conn., Dec. 5.—The British bark Bristol, of Windsor, N. S., from New York, reported last night lying off Penfield reef in distress with cable and sheets frozen and seven of her crew helpless from exposure, was still in the same position at eight o'clock this morning. It is expected that a tug will go to the vessel's assistance from this port during the forenoon, carrying a physician to give aid to the suffering men.

### FEDERATION OF LABOR.

(Associated Press.)  
Scranton, Pa., Dec. 5.—The twenty-first annual convention of the American Federation of Labor was called to order shortly after ten o'clock this morning by President Samuel Gompers, and the greatest labor convention that has probably been held in this country was under way. It is estimated that 275 delegates are in attendance for this country and Europe, representing 1,500,000 working people.

## ENTERTAINED BY CITY

Prince and Princess of Wales Attend Luncheon at the Guildhall, London—Address Presented.  
(Associated Press.)  
London, Dec. 5.—The city entertained the Prince and Princess of Wales this afternoon at a luncheon given in the Guildhall, and presented them with an address of congratulation on their successful tour of the British Empire. The Royal party drove from York House to the Guildhall in an open four-horse landau, escorted by Life Guards. They met everywhere with the heartiest reception from the sightseers lining the brightly bedecked and troop-guarded route. The scene in the library of the corporation's historic quarters, where their Royal Highnesses were received by the Lord Mayor, Sir Jos. C. Dinsdale, and the corporation, was picturesque. Leave or diplomatic dress, uniforms or judicial robes, were worn by the majority of the guests, among whom were the agents-general of the colonies. Prominent among the other notables present were Lord Salisbury, Lord Rosebery and Mr. and Mrs. Chamberlain.

### BRITISH LIBERALS AT SIXES AND SEVENS

Meeting of National Federation Demonstrates That Discord Is Rampant in the Party.  
(Associated Press.)  
New York, Dec. 5.—The chaotic condition of the Liberal party was never more noticeable than at the meeting of the National Liberal Federation at Derby, says the London correspondent of the Tribune. A resolution calling on the government to announce the terms on which they were prepared to conclude peace in South Africa was not passed without a noisy scene occasioned by differences of opinion in regard to the attitude taken up by Lord Milner.

Mr. Emmott, Liberal member for Oldham, objected to words declaring it essential, with a view to the conclusion of peace, that a special commissioner should be dispatched to South Africa. Cheers and groans greeted his statement that he would accept no vote of censure on Lord Milner, and the chairman was compelled to intervene to restore order.

As a matter of fact the differences between the various sections of the Liberal party are not differences on mere matters of detail nor are they the result of the war. The dissolution of the party began in 1885, and the war has hastened its progress, which was retarded for a time by Mr. Gladstone's personal influence.

### ASSISTING FILIPINOS.

Gen. Chaffee Taking Steps to Prevent the Natives Obtaining Supplies.  
(Associated Press.)  
Manila, Dec. 5.—Gen. Chaffee has issued orders for the closing of all ports in the Laganan and Batangas provinces. The quartermasters there will cease paying rents to the Filipinos for buildings used for military purposes, as it is known that a large proportion of the money so paid finds its way to the insurgents in the shape of contributions, and Gen. Chaffee intends that no more government funds shall find their way into the hands of the enemy. The reason for closing the ports is that too many supplies are found to be getting into the pockets of the insurgents. Gen. Chaffee intends giving Gen. Ball, commanding the troops in the Batangas, every assistance he may require to subdue the insurrection.

Governor Taft is improving rapidly, and now expects to return to the United States on the government transport Grant, which sails before Christmas.

### VESSEL CAPSIZED WITH ALL ABOARD

#### BRITISH SHIP NELSON TURNED OVER IN GALE

#### Crew of Twenty-eight Drowned—An other Disaster Occurred on Sound in Same Wind Storm.

According to news now coming from  
points along the coast the big wind  
storm of Tuesday night brought disaster  
to shipping. The most terrible effect was  
the capsizing of a ship off the mouth of  
the Columbia entailing the loss of both  
crew and cargo.

The vessel was the British ship Nelson,  
Capt. Perrin, which sank in a re-  
markable manner. She left Astoria with  
a cargo of lumber for Capetown on Novem-  
ber 25th. After starting out on the  
long voyage had weather was encountered,  
and the cargo shifted, giving her a  
list to starboard. On Tuesday afternoon  
the tug Tatosoh left Astoria to tow the  
ship back to port. She had picked her  
up and was returning when the big wind  
storm sprang up. A heavy sea followed,  
and in the rolling and pitching about of  
the vessels the hawyers broke, and with-  
out a moment's warning the ship turned  
turtle. There was no time in which to  
save lives, all on board were drowned,  
including the skipper and 27 of a crew. It  
was intended that both craft should  
remain outside until after the wind sub-  
sided, and the Tatosoh was going to  
stand by the ship in case of danger, but  
had no time to offer assistance. Fortu-  
nately the bar pilot, Capt. George Woods,  
had not gone aboard or he, too, would  
have been lost. The Nelson is an old  
wooden ship.

Still another accident resulting from  
the same wind storm is reported from  
Seattle. Steamer Clara Brown, one of  
the largest and best of the sternwheel  
fleet on the Sound, was blown ashore at  
Alki Point by the furious gale. People  
on shore saw the steamer's peril and dis-  
tress, and with lanterns hastened to the  
beach to be of service. The gale was so  
furious, however, one could scarcely  
stand on shore. When the people reached  
the shore the Clara Brown had just  
struck. The people were swarming on the  
decks and shortly they jumped into the  
sea and made shore about 50 yards  
away. A rush was made for shelter. A  
vacant summer house on the lee side  
of the point offered shelter and a wood  
fire soon brought warmth. The Clara  
Brown is one of the oldest boats on the  
Sound, having been built some thirteen  
or fourteen years ago by Captain Brown,  
who later became so well and favorably  
known as receiver and manager of the  
old Seattle, Lake Shore & Eastern rail-  
road. She is now owned by J. H. Erick-  
son and J. A. Dyke, of Seattle.

Capt. W. H. Cope, of the steamer  
Shinano Maru, which arrived yesterday,  
says that the glass fell to 28.04, which  
many places meant a cyclone, but which  
off this coast usually results in rain, as  
well as wind. The storm was too strong  
to be faced in strange waters, and after  
getting within sight of what he took to  
be the Cape, he put to sea again, and

remained off shore until daylight, yester-  
day morning.

#### AT THE OUTER WHARF.

Those who viewed the Shinano Maru,  
of the Nippon Yusen Kaisha line, which  
arrived yesterday from the Orient, saw  
the model of all that company's recently  
constructed ships. It is after the  
Shinano Maru that the Kaga Maru was  
designed, and it was also on her lines  
that the Iyo Maru has been built. This  
latter vessel is soon to be placed on the  
British Columbia route. She has been  
given into the command of Capt. Parson,  
and will be sailing for Victoria in the  
near future. Although this was the  
first call of the Shinano Maru, she has  
been a year or more in service. She is  
almost identical in appearance to the  
Kaga Maru, a full description of which  
was published in these columns, the only  
difference being in the fact that the just  
arrived liner is perhaps not so hand-  
somely finished. The Shinano Maru was  
very deeply loaded, having 6,288 tons  
measurement on her arrival here, of  
which 250 tons were for Victoria. There  
were 10 saloon passengers and 96 Japan-  
ese, of whom a good number were debar-  
ked. The vessel arrived off the Straits  
on Tuesday night, but owing to the  
terrible gale blowing at the time put to  
sea again.

#### TO SEARCH FOR NELSON.

This morning Capt. Butler, of the tug  
Lorne, received orders from the Puget  
Sound Tugboat Company to stand in  
readiness to proceed at once in search  
of the British ship Nelson, which cap-  
sized off Astoria. The Nelson, unlike  
the Highland Light, which was loaded  
with coal, has lumber on board, and will  
therefore not sink. The currents and  
wind will have a tendency to take her  
in the direction of Vancouver Island,  
and the Lorne, by keeping the regular  
path of the coasters, will, it is thought,  
have no difficulty in locating her. On  
receiving the message this morning Capt.  
Butler immediately wired back for full  
instructions. The Puget Sound Tugboat  
Company are particularly interested in  
the wreck, for it was the company's tug  
which had hold of the ship just prior to  
the disaster.

#### WIRELESS TELEGRAPHY AT SEA.

Speaking of his recent trip across the  
Atlantic on the Cunard line steamer,  
the Hon. Lambert Tree remarked: "Go-  
ing over on the Lucania we received  
messages from England and the United  
States while we were 70 miles at sea.  
Returning on the Campania we were in  
communication in mid-ocean, over a dis-  
tance of 180 miles, with the Lucania,  
which was east bound. We sighted her  
and got in connection with her at 10.30  
o'clock in the evening, and the vessels  
continued to interchange messages until  
3 o'clock the next morning. The Lan-  
ciana's lights were only visible to us for  
a short time, but the electric signals she  
flashed us through space were received  
as if she had been alongside. The Cun-  
ard line has just adopted wireless tele-  
graphy as a regular means of communi-  
cation."

#### MARINE NOTES.

The old barge Ajax has again been  
turned over for a consideration of \$5,  
000. The vessel about a year ago was  
purchased by J. Hunter, and after under-  
going considerable improvement, went  
into the ore carrying trade for a time.  
She has now been taken over by a  
Puget Sound transportation company,  
and after being overhauled on Tupper's  
ways she will again enter that service.  
The salmon carrier Ballachulish on the  
Fraser river is reported to be loaded and  
ready to sail. Her cargo consists of 55,  
198 cases, valued at \$425,000. The  
cargo of the Ballachulish is the largest

yet loaded on the Fraser this season.  
The Ballachulish has no crew. Her first  
officer is missing, and her second is in  
trouble.

Steamer City of Puebla, which sails for  
San Francisco this evening, will carry  
as Victoria passengers B. Gordon, wife  
and son, Mrs. L. Wood, K. Yawana, A.  
W. Dow, Miss M. Street, Mrs. A. P.  
Tate, Miss J. Holmes, Mrs. A. P.  
Briggs, H. C. Howard and wife, A. T.  
Falls, E. H. Gillespie, C. Wilson and  
Mrs. Wilson.

Schooner City of San Diego was lying  
in the bay this morning ready to proceed  
to sea. She will be the first of the seal-  
ing fleet to sail. Capt. Folger is in  
command, and there is a crew of 21  
men aboard. The vessel after leaving  
here will go direct south.

The ship C. F. Sargent, which returned  
last week in a leaking condition, will  
not be hauled out on the ways. Capt.  
Melville said this morning that he has  
got all the leaks stopped, and is now only  
waiting for some new pumps to arrive  
from San Francisco.

Several of the crew of the lost High-  
land Light left for the Sound yesterday  
evening. They have been paid, and hav-  
ing had from \$40 to \$60 coming to them  
in wages are not in any distress.

Steamer Deutschland, from Hamburg,  
Plymouth and Cherbourg, arrived off  
Fire Island at 9.20 a. m. to-day.

Steamer Anur arrived at Vancouver  
from Skagway this morning, and will  
reach here this afternoon.

The John C. Potter, which arrived yester-  
day, is to carry one or two cargoes of  
coal to Juneau.

#### TRANSFER OF COMMAND.

Major Monro Has Taken Over the Fifth  
Regiment—Other Regimental  
Announcements.

The transfer in the command of the  
Fifth Regiment from Lieut.-Col. Gregory  
to Major Monro has taken place. The  
district order announcing it was included  
in the following regimental order issued  
last evening by the new C. O., Major  
Monro:

No. 1 Co.—Sergt. Major P. M. Russell  
having been granted his discharge, is  
struck off the strength of the regiment.  
28th November, 1901.

The commanding officer has been  
pleased to approve the following promo-  
tions in No. 1 Co.: To be company  
sergeant-major, Acting Company Sergt.,  
Major E. R. Vigor, vice Russell, dis-  
charged, 18th June, 1901. To be ser-  
geant, Corp. J. A. Sweet, vice Vigor,  
promoted 22 December, 1901. To be  
corporal, Bomber, W. J. Pumphrey, vice  
Sweet, promoted 18th June, 1901. To be  
bombardiers, Gns. H. Carne, J. M. Lit-  
tle, and S. Booth vice Nesbitt, Hayward  
and Pumphrey, promoted, 18th June,  
1901.

The following district order dated De-  
cember 3rd, 1901, is published for infor-  
mation:

The tenure of command of Lt.-Col.  
F. B. Gregory having expired and as the  
regimental arms, accoutrements and  
clothing, etc., have been taken over by  
Major R. R. Monro, Lt.-Col. Gregory is  
hereby relieved from regimental duty  
pending his transfer to the reserve of  
command.

"Major R. R. Monro will assume com-  
mand of the Fifth Regiment, C. A., from  
this date inclusive."  
"J. G. Holmes, Lt.-Col., D. O. C. 11."

#### FOOD FACTS.

##### How to Properly Feed the Body

Physicians nowadays realize how nec-  
essary it is that the food contain the  
right elements that the body requires to  
rebuild itself, and replace the loss that  
occurs each day from activity and en-  
ergy.

If one lifts an arm, that means the ex-  
penditure of a small amount of energy,  
and the burning up, so to speak, of cer-  
tain deposits from the food. This means  
a certain loss, and this loss must be made  
up each day from food. If the food  
does not contain the things required,  
nature insists a day of distress; aches,  
sickness of some sort sets in, mean-  
ing that there is something lacking in  
the food.

The reason physicians so generally ad-  
vise the use of Grape-Nuts Breakfast  
Food is that they know from what it is  
made and what it contains. The medi-  
cal journals in various parts of the world  
have given the analysis. The famous  
"London Lancet" went so far as to make  
a very careful analysis by its own chem-  
ist. Its remarks are worth repeating.

"The preparatory process undoubtedly  
makes the food constituents into a  
much more digestible condition than the  
raw cereals. This is evident from the  
remarkable solubility of the prepara-  
tion. No less than one half of it be-  
ing soluble in water. The soluble por-  
tion contains chiefly dextrin and so  
starch. According to our analysis the  
following is the proportion:

Moisture	6.02 per cent.
Mineral matter	2.01 " "
Fat	1.00 " "
Protein	15.00 " "
Soluble Carbohydrates	49.40 " "
Unaltered carbohydrates	25.97 " "

The features worthy of note in this  
analysis are the excellent proportion of  
proteins and mineral matter, and solu-  
ble carbohydrates.

The mineral matter is rich phosphoric  
acid. Our analysis shows that it is a  
nutritive of high order, since it contains  
the constituents of a complete food in  
the right proportions, and in an easily  
assimilable state."

Notice the carbohydrate total is about  
75 per cent. These produce energy and  
warmth. The phosphoric acid in the  
mineral matter comes, do all of the other  
ingredients, from the field grain,  
not one particle being introduced as a  
drug.

Physicians know that the soft matter  
in the brain and nerve centers through-  
out the body are made from the elements  
of albumen acted upon by phosphate of  
potash. Albumen is a common food  
article in almost every food, but phos-  
phate of potash does not exist in all  
foods, nor is it found in easily digestible  
form always. However, in Grape-Nuts  
these elements exist, and are presented  
to the body in an easily digestible form,  
and explain the reason why users feel the  
new spring of life, the brain and nerve  
power increase, after they have been  
using Grape-Nuts for a time. There is  
a reason for it. The doctors know it,  
therefore they prescribe Grape-Nuts.

#### THE STAGE SERVICE.

Semi-Weekly Schedule to Be Provided  
By White Pass & Yukon Co.

Winter bulletin No. 2, of the White  
Pass & Yukon route, just issued by the  
company, says the Seattle Post-Intelli-  
gencer, contains the announcement of  
the establishment of the overland stage  
service between White Horse and Daw-  
son. It will be in operation some time  
during the present week.

Mail passengers, freight and express  
will all be carried from Skagway to  
White Horse by rail and from White  
Horse on by sled stages. Although the  
company has not sufficient stock and  
equipment on hand to run a daily ser-  
vice, for the present passenger, mail and  
express stages will leave only twice a  
week, on Wednesdays and Saturdays.  
The regular fare from Skagway to Daw-  
son will be \$110, and from White Horse  
\$100.

The passenger stages will run on five  
and one-half day schedule, although the  
actual running time is expected to be  
much less. Later on, when the trail be-  
comes well broken and conditions become  
favorable, the running time will be re-  
duced very considerably. Each sleigh  
will have accommodations for ten pas-  
sengers, 1,000 pounds of baggage and  
1,000 pounds of mail and express. Fresh  
teams will be supplied at each station,  
and no team will travel more than 25  
miles. The stages will stop at the road  
houses over night, where the passengers  
will sleep, all traveling being by day-  
light.

As might be expected, a number of  
regulations are necessary in regard to  
the carrying of baggage and freight.  
Twenty-five pounds of personal baggage  
are allowed to each passenger, to be  
carried free. All other baggage, pro-  
vided it is in pieces, which do not exceed  
three feet in length and eighteen inches  
in width and depth, will be charged for  
at the rate of 50, 45 and 40 cents per  
pound, according to the quantity. Any  
baggage which does exceed these di-  
mensions will be held and sent through  
by freight. No piece of freight over 14  
feet in length and five feet in width  
and height will be carried, or any piece  
which weighs more than 30, 45 and 40  
cents per pound, according to character.

A mail service is also established to  
Atlin, via the "Fan" trail, leaving on  
Monday and Thursday of each week.  
The same class of mail is handled as on  
the Dawson run.

The run of 350 miles between White  
Horse and Dawson is broken by 15 road  
houses, where the teams will be changed,  
and at some of which all-night stops will  
be made. These are at intervals of  
about 25 miles, the longest distance be-  
tween any two being 30 miles, between  
Upper and Lower La Ronge.

"FRA DIAVOLO" LAST NIGHT.  
Grua Company Gave Another Pleasing  
Performance—"Dorothy" This  
Evening.

The Grua company last night present-  
ed "Fra Diavolo" before a large audi-  
ence, and although many a better per-  
formance has been seen here, the com-  
pany sustained the good impression  
created by their excellent production of  
"El Capitán" on the previous evening.

The part of the dashing, brigand chief  
was taken by Robert Dunbar, who was  
the company's tenor in years gone by.  
His voice is not as clear as it was then,  
but he can roll his eyes just as savagely  
and lend the same degree of grace to the  
role which characterized his portrayal  
of one of the beggar students in the  
opera of that name. The part of Fra  
Diavolo requires an expert posour, and  
Mr. Dunbar looked and acted the role  
admirably.

The character of Lorenzo, the captain  
of Carlinville, received good treatment  
in the hands of Harry Davies. Miss  
Carrington as Zorina was excellent, both  
in her singing and acting. The toilet  
scene was faultlessly executed, and was  
noticeable for the absence of vulgarity,  
which so often mars an act of this sort.  
Edward Eagleton, the El Capitán of  
the previous night, as Giacomo, and  
Stanley Felch as Beppo, followers of Fra  
Diavolo, had charge of the fun, and  
they did it well. Robert Kane was all  
right as Lord Alceash, but perhaps it  
would be out of place to wildly sug-  
gest that the next time Mr. Kane enacts  
that role he should adjust his temporary  
birsute gear so that it will cover the  
coronet that nature gave him.

Miss Tannehill made the most of the  
role of Lady Alceash. The chorus had  
little to do, in fact they had lots of  
opportunity to rest after "El Capitán."  
They will need all their reserve before  
the week is over for a five-nights' steady  
engagement removes all ground for the  
assumption that the chorus enjoys a  
sinecure. "Dorothy" holds the boards  
to-night.

#### PEJE STORCK.

Of the performance of the celebrated  
Belgian pianist, the Belgian News says: "In  
this class it was remarkable with what au-  
thority, taste and sentiment the pieces  
were performed, whether it was they  
were older than the girls we cannot say,  
but certainly this class was far superior  
both for originality and feeling to that  
of M. Gurikay. M. Storck, who is a  
Swede, not a Dane as announced by  
some of our Belgian contemporaries, was  
awarded first prize with the highest hon-  
ors which the conservatoire can confer.  
He played his Liszt and Chopin most  
beautifully, his splendid mechanism ap-  
pearing in his Liszt and his real artistic  
nature in his Chopin. He has all that  
distinguishes a real artist, admirable  
mechanism, soul, touch, everything. And  
we can safely say that we have never  
heard such applause from a Belgian pub-  
lic as he received and richly deserved."

UNDER THE NERVE LASH.—The tor-  
ture and torment of the victim of nervous  
prostration and nervous debility no one can  
rightly estimate who has not been under  
the ruthless lash of these relentless human  
foes. M. Williams, of Portland, Ore., was  
for four years a nervous wreck. Six bot-  
tles of South American Nervine worked a  
miracle, and his doctor confirmed it. Sold  
by Jackson & Co. and Hall & Co.—28.

#### ASSOCIATION FOOTBALL.

COLUMBIAS V. VICTORIA.

The second game in the senior series of  
the Victoria District League will be played  
on Saturday between the Columbias and  
the Victorias. This is the first time these  
two teams have met this season, and a  
hard game is anticipated. The Victoria  
team will be the same as defeated Nanaimo  
last week, and they will try and uphold  
the record which they have established this  
season. J. Noot, of the Fernwoods, will act  
as referee. The game will be called at 3  
p. m., and the team that is not ready to  
begin at 3:05 will lose the game by default,  
game not being finished before dark. The  
Victoria team will be as follows: Goal,  
Kinsman; backs, Goward and Schwengers;  
half backs, York, Rutherford and Johnson;  
forwards, R. Simpson, J. Lorimer, R. Liv-  
ingston, L. York and S. Lorimer.

#### SATURDAY'S GAMES.

On Saturday afternoon next two games  
will be contested at Beacon Hill between  
the intermediate teams Columbias and  
Victoria West, and the junior teams North-  
westers and High school. Both matches  
are expected to be most exciting and evenly  
contested. The former will commence at  
3 o'clock sharp, and as the Columbias have  
been working hard for some time past for  
the purpose of defeating the Victoria  
West boys on this occasion, it may safely  
be said that the football exponents from  
North Victoria will have a more difficult  
time perhaps than they anticipate in  
overcoming victory from the Columbia ag-  
gregation. A good game is therefore in-  
sured. The Northwesters and the High  
school teams are the two heavy aggrega-  
tions of the junior league, and an even  
match is anticipated. It may be well in  
this connection to intimate that the rule in  
regard to supplying the referee beforehand  
still holds good, and if he is not on hand  
the game will be declared off. The match  
will commence sharp on time, the team  
not having its full complement of players  
having to play short.

#### A DUNDAS FARMER

After Many Trials and Failures, and  
Much Expense, He at Last Finds a  
Cure for His Stomach. Leading  
Doctors Had Said He Could Not  
Be Cured, But Dadd's Dyspepsia  
Tablets Did It.

One of Hamilton's leading doctors, as  
well as the local physicians pronounced  
the case of Donald George Ross, a farmer  
of Dundas, Ont., one of Chronic Dys-  
pepsia.

They told him his was a very bad case,  
and gave him no hope of ever being com-  
pletely cured.

Several of them treated him for some  
time, but failed to help him. He became  
alarmed.

The Dyspepsia had brought on severe  
headaches and nervousness, which for  
three years made his life one of misery.  
Today Mr. Ross has no headaches or  
nervousness. He has no Dyspepsia. He  
has no Indigestion or Stomach Troubles  
of any kind. He can eat heartily and  
sleep well. In fact he is an all round,  
well man. Dadd's Dyspepsia Tablets  
cured him.

He tells the story this way:  
"For about three years I have been  
troubled with headaches and nervous-  
ness, caused by Dyspepsia. I could not  
get any relief. The doctors told me I  
had a very bad case and that I would  
not get a cure. I became very much  
alarmed, and immediately I sent one  
Hamilton's leading doctors, but to no  
use."

"I heard of Dadd's Dyspepsia Tablets,  
and determined to try them. I am now  
cured. From my experience I believe  
that Dadd's Dyspepsia Tablets will cure  
any case of Dyspepsia, and I would  
strongly advise any sufferer who may have  
failed to find a cure through the  
doctors or other medicines, to try  
Dadd's Dyspepsia Tablets."

Mr. Ross's character and reputation  
for honesty, makes this voluntary testi-  
monial a valuable tribute to the curative  
properties of Dadd's Dyspepsia Ta-  
blets.

All who suffer as Mr. Ross did, should  
be guided by his successful experience,  
to use the only remedy for Dyspepsia  
that never fails, Dadd's Dyspepsia Ta-  
blets.

No matter what anybody says, or how  
many medicines have failed in your  
case, Dadd's Dyspepsia Tablets will not  
disappoint you.

Coco is Spanish for beggar, and it is said  
the cocoa-nut was thus named for its re-  
semblance to a distorted human face.

## OUR WRATHY NEIGHBOR.

Our highly esteemed and lofty-minded contemporary was in a ferocious mood this morning, and gave utterance to a few noble thoughts entirely worthy of the fountain of political purity and disinterestedness from which they emanated.

The Times said last night that a newspaper which "is not in a position to accept" advertisements referring to the candidature of a man who is an opponent politically of its chief proprietor is nothing more than a personal organ. That will strike any fair-minded man as a reasonable enough conclusion to reach, all the circumstances of the case considered.

The retort of our courteous contemporary in effect is that the Times in the first instance damned Mr. Bodwell with faint praise and that some one connected with this paper has no other thought but to obtain a cabinet position. We might, in the language of our most esteemed, reply that the Colonist is a "gross and villainous slanderer," a "deliberate liar," and so on. But our contemporary's character is so well known that it is almost a waste of time to devote any space to the consideration of its assertions.

If the Times had come out when Mr. Bodwell announced that he was in the field with columns upon columns about his patriotism in rushing to the assistance of the province in its time of peril; if we had told the people that it was with the utmost reluctance that he could be prevailed upon to come out as a candidate in the cause of good government; of the tremendous sacrifices he was making; of his readiness to retire on the slightest hint being conveyed to him that there was even an infinitesimal element of the population opposed to his candidature; if we had gushed and slobbered and eulogised and wept at the very thought of the personal self-sacrifice and self-sacrificing spirit of the candidate, then we would have been acting in a manner which our sceptical neighbor could have understood and appreciated. But as the Times merely published Mr. Bodwell's preliminary announcement and pointed out calmly and without unnecessary puffery, that his presence in the Legislature at the present time could not but redound to the interests of the province, why of course we "damned him with faint praise."

The Colonist mentions as an instance of its political liberality the fact that during the last Dominion campaign it published pictures of the two Liberal candidates. Quite true. But the personal ambitions of our contemporary's chief proprietor were not then represented by the Conservative candidates. Circumstances alter cases.

The Premier as the chief proprietor of the Colonist dictates its policy. That cannot be denied. Mr. Bodwell is in the field in opposition to the candidate who will uphold the cause of the Dunsmuir government, if such an one can be found, a matter about which there seems to

be grave doubts at the present time. The Colonist has orders to keep its subscribers in the dark as far as lies in its power in regard to the political situation, even to the extent of refusing the insertion of advertisements. That is an unusual state of affairs in the history of Canadian journalism. If Mr. Dunsmuir's one ambition is to advance the interests of "his native province," why not meet whatever opposition comes in his way in a straight-forward fashion? The fact that Mr. Bodwell is a candidate cannot be hidden. Let his arguments be met; turn his position, and defeat him at the polls in a straight, honorable, manly contest.

The Times acknowledges candidly that it depends upon the public patronage for a livelihood. It cannot afford to turn away advertisements. Neither can it afford to misrepresent or ignore the sentiments of any section of the community. Possibly if it had millions behind it it too would be sneering at some of its less fortunate contemporaries. Earning a livelihood is not without its compensations. It keeps individuals and institutions in the paths of rectitude.

Mr. Dunsmuir seems to be experiencing some difficulty in prevailing upon a candidate to come forth in opposition to Mr. Bodwell. Now there is Mr. Lugin. He has long been known to be possessed of political ambitions. He is clever, a good speaker, filled to the top of his cranium with information upon every conceivable subject. He is not easily abashed by apparent obstacles. He has the talents necessary in a Cabinet Minister. It is even said he has cast eyes full of longing in the direction of a certain department. The Premier may not know this, for the editorial weakness and "unbiasness" are well known. The spirit which animates those who wait upon potentates and barons is also well known. Backbitings and jealousies often keep men of genius in the background for a long time. We consider it our duty to call the attention of the Premier to his obvious duty. There is no reason why the tension should not be relieved immediately, as it is obviously having a bad effect upon the temper of a certain person. Let the Premier put Mr. Lugin in the field. The Times will do its part in spreading the glad tidings abroad. Candor compels the admission that the fight would be a most interesting one.

The Point Ellice bridge controversy is only second in interest to the provincial political situation at the present time, if indeed it is second to that. Mr. Frank H. Snow, a member of the Association of American Civil Engineers, makes the following statement in a paper printed in the organ of the society which seems to have a direct bearing upon the tenders which were recently opened here:

"Now, contracts awarded on plans and specifications furnished by each bidder have been held to be illegal, because the law implies a common standard upon which bids shall be compared. As any other method would be contrary to the policy of law and good government, it is usually held that a city must prepare its own plans and specifications, and all patented processes constituting the subject of a monopoly must be excluded from the plans."

The meeting of the Tourists' Association in the city hall this evening should not be forgotten by the public. The object of the gathering is a patriotic one and the promoters of the association should be encouraged in their unselfish work. The time has come to inform the world of the attractions of Vancouver Island to those who are in search of homes, health, or sport. This is a matter in which we must help ourselves. Individuals have done much to draw attention to our attractions, but in order to accomplish the highest results there must be unity and concentration of effort. Victorians should work together and they should begin immediately.

In justice to Capt. Clive Phillips-Wolley we desire to point out that he has been misrepresented, no doubt unintentionally, in regard to his attitude towards the Tourists' Association. The Captain is completely in sympathy with the movement, although he justly claims there must be a change in conditions before the highest results can be accomplished as regards the attraction of permanent settlers of the working class. No individual has done more to induce a most desirable class of people to take up their abode here.

## DUTY TO EMPIRE.

Capt. Wolley's Forensic Lecture on the Mongolian Question Before Empire League.

The British Empire League held a successful public meeting at the city hall last night, where a considerable number of people had gathered to hear Capt. Clive Phillips-Wolley's address upon "Our Duty to Our Race."

The speaker described a nation as a society of men who have in common race, religion, laws, language and origin, which evolved a special type, conscious of separate entity and inspired by a common thought. He then dealt with the evolution of the British race from the tribes of Northern Europe, sea-born, seafaring, seafaring, always fighters and always traders. The predominant quality of such a type was courage, and their faith, the worship of Odin, was merely the cult of courage. They became the worshippers of the White Christ, and as such they had evolved a higher type of courage than their heathen father, together with a love of freedom, law and justice which distinguished them above all other peoples. It was our duty, as the offspring of these men, to preserve the heritage they had won for us and our children's children, and to hand down to them unimpaired the vigor of our race and the worship of our God. Could we do this if we allowed our territory to be overrun by the lowest type of alien?

After a summary of the methods by which the Empire had been built up, Capt. Wolley dealt with the position of the British Columbia occupied in the development of British greatness, and proceeded in a manner that the presence of the Chinese in our midst was detrimental to the province and the Empire. He thought that the best way to keep out the Chinese would be a rigid enforcement of sanitary laws, the prohibition of market gardening that was carried on by methods too filthy to mention, and by shipping a few thousand Chinamen to Eastern constituencies to convert the members of the Dominion House to the views of the people of this province. C. F. Moore corroborated what Mr. Wolley had said.

C. A. Bury moved a vote of thanks to the lecturer, and welcomed him on behalf of the Empire League. J. Logg seconded the vote of thanks on behalf of organized labor, and said that the workmen of this province wished to preserve our national heritage for the Anglo-Saxon race. The meeting closed with the singing of "God Save the King."

—This evening at the Oriental Hotel a meeting of the Victoria Kennel Club will be held, to which all interested in matters pertaining to dogs are requested to attend. As previously mentioned, this evening's meeting is called for the purpose of considering matters of very great importance to the club.

—The matron of the Protestant Orphanage, Mrs. Odell Roberts, has given notice of her intention to resign. The unfitness of some of the boys has not made her incumbency a very pleasant one.

—The Trades and Labor Council held a meeting last evening, when routine business was transacted. The members afterwards attended the meeting of the British Empire League.

—To the Citizens of Victoria.—After carefully investigating the affairs and assets of the Similkameen Valley Coal Company, Limited, coupled with the report of W. Blakemore, one of Canada's best known authorities on coal, I have no hesitation in recommending the stock of the company as a good and safe investment. Asholia is also owned by the same company, and will undoubtedly be the coming city of the Kootenays. The fact of the company's giving a six month's option on stock with a non-forfeiture clause is worthy of careful consideration. On and after December 15th I am instructed to advance their stock from 35 cents to 50 cents, and on January 1st, 1902, to \$1. J. E. Church.

—Don't miss Columbia vs. Victoria game Saturday.

—Sportmen, get your shotgun cartridges from Henry Short & Sons, and be sure of the best. All kinds on hand at lowest prices.

—A meeting of the streets, bridges and sewers committee of the city council will be held to-morrow afternoon at 2:30 at the city hall.

—Another public meeting will be held in Odd Fellows' hall, Spring Ridge, to-morrow night for the purpose of discussing live subjects, including the bridge question.

—December 15th Similkameen Valley Coal Company's shares advance to 50 cents. Purchase 100 shares at once, and make a net profit of \$150.00 on your investment before January 1st, 1902. What more can you want?

—A return basketball match will be played at the drill hall on Saturday night between the J. B. A. and the Fernwood basketball teams. The last game between these two teams was won by the J. B. A. with a score of 21 to 10.

—The police have notified express vehicle drivers that they must take the stands provided for them in the by-law. These are centre of Yates street east of Douglas, centre of Yates street west of Langley, centre of Wharf street and centre of Government north of Government.

—A special meeting of the city council will be held in the committee room of the city hall to-morrow afternoon commencing at 3 o'clock, for the purpose of dealing with the Point Elliot bridge question, as announced in the letter from the mayor to some of the aldermen, which was published in these columns last evening.

—Altogether about 50 men are employed in the James Bay improvement work, in which good progress is being made. Some are engaged in cutting off the pile and removing the mud from between them to leave room for the loose stones to be placed there, while others are extending the surface drain through the flats to the harbor.

—A public meeting will be held in the city hall to-night to receive the report of the special committee appointed to draft a constitution for the Tourist Association of Victoria. Addresses will be delivered by several prominent speakers, and the meeting should be well attended. Great interest has been aroused in the movement, and there is a general desire to give it hearty support.

—You will never buy Similkameen Valley Coal Company, Limited, shares for less than 35 cents. On December 15th shares advance to 50 cents; January 1st, 1902 to \$1.00; February 1st, to \$2.00; March 1st to \$3.00, and as comparison there is no reason why they should not advance to \$40.00 in one year, as the Crow's Nest shares did in a like period. Don't say this cannot be done, for it has been and will be.

—The board of arbitration in connection with the expropriation by the city of the lot at the north end of James Bay bridge, owned by the Donald Fraser estate, held another session this morning. The arbitrators are E. C. Pemberton, the estate, while T. B. Hall is umpire. J. M. Bradburn, city solicitor, is conducting the proceedings for the city, and H. D. Holmeken, K. C., for the estate. One witness was examined this morning, after which an adjournment was taken.

## SWEET CAPORAL CIGARETTES.

—The charge of an infraction of the Revenue By-Law preferred against Joshua Davies was withdrawn in the police court this morning, the defendant having paid his six months' licence fee, and the costs, including the costs of the case, were \$5.00. Davies was fined \$5.00 or 30 days for drunkenness. Ah Fook, an old offender, was charged with an infraction of the Street By-Law. He backed his vehicle across a sidewalk on Esplanade street. He was fined \$5.00. Ah Fook, while quite a familiar figure in police court circles, always manages to come up on a different charge. To his credit it might be said that he never repeats one offence, as there are many others in the category of contraventions open to him. Low Chip is wanted for an infraction of the Street By-Law also, but up to this morning the summons had not been served. Low has probably made himself scarce.

## Mining News

## Rossland Camp.

The shipments of ore from the Rossland camp for the week ending last night are the largest since work was resumed in the mines on September 1st last, says Sunday's Rossland Miner. The aggregate runs over the 6,000 mark, an achievement that every Rosslander will hail with pleasure. A scrutiny of the figures will demonstrate that the output of the Le Roi mine is within a few tons of the product at any time in the history of the property. The mine could undoubtedly have sent out the double shipment on one of the days of the week had the cars been available. The Le Roi No. 2 is rapidly becoming a large producer of ore. If last week's record is maintained for a twelvemonth, the mine will have to its credit a total output of almost 80,000 tons.

## The Output.

The output for the week ending November 30th and for the year to date is as follows:

	Tons—	Year—
Le Roi	4,200	145,788
Le Roi No. 2	1,500	33,710
Centre Star	54,648	54,648
War Eagle	20,100	20,100
Rossland G. W.	375	9,731
Iron Mask	3,732	3,732
Homebake	20	20
J. X. L.	200	200
Spitzee	200	200
Velvet	203	203
Monte Cristo	20	20
Evening Star	74	74
Giant	20	20
Portland	24	24

Totals..... 6,975 288,093

Le Roi.—The Le Roi shipments last week were exactly 20 cars per day for every day in the week, totalling 140 cars. As the complaint is made of a shortage of cars it is presumed that the company intends to ship more extensively in the near future.

Le Roi No. 2.—Development work and stoping has been carried ahead during the week throughout the Josie and No. 1 mines, comprising the Le Roi No. 2 company's properties. The mines have made something of a record in the matter of shipments and as the figures for the output have been growing steadily since work was resumed it may be taken for granted that the end of the growth is not yet in sight.

Nickel Plate.—The work in the Rossland Great Western's property has proceeded without feature of special interest. The usual mining operations are being carried on and the crew in the mine is being increased from time to time as necessity demands.

Green Mountain.—The actual work of sinking the next 100 feet of shaft in the new workings on the Green Mountain, St. Louis Consolidated Company's property, has been started and for the past week the operations have gone ahead steadily.

O. K.—The prospect work at the O. K. mine has gone ahead steadily during the last week. The outlook is most satisfactory.

Velvet.—At the Velvet the arrangements for shipping are completed and the first snowfall sufficient to make sleighing will see ore moving down to the Red Mountain railroad for shipment. The usual mining operations are under way steadily.

Centre Star.—The pumping operations at the Centre Star mine are still under way and the unwatering of the mine is proceeding rapidly.

New St. Elmo.—The work in the west drift has been prosecuted steadily during the week with a small force, and good progress has been made.

Albion.—The installation of the balance of the electric plant has been under way, and the commencement of active operations underground is only a matter of a few days.

## WEEKLY WEATHER SYNOPSIS.

Victoria, Meteorological Office.

27th Nov. to 3rd Dec. 1901.

The weather during this week has been remarkably cloudy, and rain has fallen on every day but one. This was due to the constant hovering of a portion of the great Pacific low area over this province, and the adjoining states, while from the Coast of California inland to the plateau region, including the Canadian Territories, the barometer remained high. Upon Saturday, the last day of November, the barometer fell rapidly in this vicinity in advance of a storm area from the ocean, which, as it passed inland, across Vancouver Island, caused a southerly gale on the Straits of Fuca and Georgia. The following day was comparatively fair over the Pacific slope, with a tendency along the Coast for dry northerly winds. On Monday, 2nd Dec., another ocean storm area crossed northern British Columbia, and caused a southerly gale on the Coast, and a thunder and lightning at both New Westminster and Cape Flattery. This disturbance was followed on Tuesday, 3rd, by one of the severest widespread storms of the season. As the centre of this storm passed across Vancouver Island, the Victoria barometer fell to 29 inches, and the wind increased to a gale from the southeast, shifting to southwest as the centre moved inland. During this day a southerly gale also prevailed along the American coast as far southward as San Francisco. With the exception of two days, the weather has been remarkably mild between the ranges, particularly about the Thompson river valley, where the temperature rose to 56 on Nov. 27th, and caused a rapid melting of the snow upon the mountains. The weather has also been mild in Alberta, and with the exception of two days considerably above zero in Manitoba.

Victoria.—Bright sunshine recorded was 3 hours and 2 minutes; rain, 1.00 inch; highest temperature, 63 on the 25th; lowest, 42 on 2nd Dec.

New Westminster.—Rainfall, 2.09 inches; highest temperature, 56 on 27th; lowest, 34 on 2nd.

Kamloops.—Rainfall, .16 inch; highest temperature, 56 on 27th; lowest, 32 on 2nd.

Barkerville.—Rainfall, .58 inch; highest temperature, 46 on 25th; lowest, 15 on 2nd.

Backache, swelling of feet and ankles, puffing under eyes, frequent thirst, scanty, cloudy, highly colored urine and all urinary troubles lead to Bright's disease, dropsy, diabetes, etc., Doan's Kidney Pills are a sure cure.

## MOUNTAIN MOVEMENTS.

"The mountains are constantly moving," was the remark of an officer of the Denver and Rio Grande road recently in speaking of the great landslides in the canon at low Clearwater Springs, Colo. "We find from actual experience in maintaining tunnels, bridges and tracks in the mountains that the mountains are moving. It costs a railway passing through the mountains a great deal of money in the course of ten years to keep the tracks in line, and maintenance of tunnels is even more expensive. Drive a stake on the side of a mountain, take the location with the greatest care, and return after a few months. The stake is not in the same location. The whole side of the mountain has moved. This experiment has often been tried, and in all cases the result proves that the mountains are moving. The mountains are gradually seeking the level of the sea."

While we do not agree with the last assertion that "the mountains are seeking the sea level," there appears no question but that local movements are in progress in the Rockies, and the observations of the railroad surveyors are confirmed by those experienced in some of the mines. In quite a number of mines located on fissure veins or between highly tilted strata, or in the vicinity of great faults, movements have been for a long time observed, and sometimes of so pronounced a nature that timbering a few years are found so out of place as to require a complete new timbering of portions of the mine, and these movements do not seem to be the result, as in coal mines, of a creeping from excavation of material, but actual slipping or sliding movements of the mountain itself along certain lines, especially at fault planes and veins, the latter generally occupying fissures along fault lines.

A notable instance is in the mines of Smuggler mountain, at Aspen, Colo., where in some of the deep workings timbers two feet thick and eight to ten feet long placed across the slopes are snapped in two like reeds, and their ends broomed up by the overwhelming pressure and slipping movements of the walls. The ore bodies lie between strata almost vertically uplifted against a granite mountain or wall, and abound in faults and slippings. These movements are not the result of excavation of the ore, but appear to come from a general movement of the hills, slipping or faulting from the granite wall. Miners and Minerals.

## THE LIQUOR HABIT.

Rev. J. A. McCallen's Lecture.

On the occasion of a lecture delivered before a large and appreciative audience in Windsor Hall, Montreal, in honor of the Father Matthew anniversary, Rev. J. A. McCallen, S.S., of St. Patrick's church, and President of St. Patrick's Total Abstinence Society, paid the following grand tribute to the value of Mr. Dixon's new discovery for the cure of alcohol and drug habits.

Referring to the physical craves engendered by the inordinate use of intoxicants, he said: "When such a crave manifests itself there is no escape unless by a miracle of grace, or by some such remedy as Mr. Dixon's cure, about which the people have spoken so much lately, and if I am to judge of the value of the Dixon remedy by the cures which it has effected under my own eyes, I must come to the conclusion that what I have longed for twenty years to see discovered has at last been found by that gentleman."

Full particulars regarding this medicine can be obtained by writing to Mr. Dixon, No. 81 Wilcocks Street, Toronto, Canada.

## Don't Become An Object

OF AVERSION AND PITY. CURE YOUR CATARRH, PURIFY YOUR BLOOD AND STOP THE OFFENSIVE DISCHARGE.

Dr. R. Bochner, of Buffalo, says: "My wife and I were both troubled with distressing Catarrh, but we have enjoyed freedom from this degrading malady since the day we first used Dr. Agnew's Catarrh Powder. Its action was instantaneous, giving the most grateful relief within ten minutes after first application." 50 cents. Sold by Jackson & Co. and Mail Co.—2.

CAREER AND CHARACTER OF ABRAHAM LINCOLN.

An address by Joseph Choate, Ambassador to Great Britain, on the career and character of Abraham Lincoln—his early life—his early struggles with the world—his character as developed in the later years of his life and his administration, which placed his name so high on the world's roll of honor and fame, has been published by the Chicago, Milwaukee & St. Paul Railway, and may be had by sending six (6) cents in postage to T. A. Miller, General Passenger Agent, Chicago, Ill.

## "The Milwaukee"

A familiar name for the Chicago, Milwaukee & St. Paul Railway, known all over the Union as the Great Railway, known all over the Union as the Pioneer Limited train every day and night between St. Paul and Chicago, and Omaha and Chicago. "The only perfect train in the world." Understand: Connections are made with All Transcontinental Lines, assuring to passengers the best service known. Luxurious coaches, electric lights, steam heat, of a variety equalled by no other line.

See that your ticket reads via "The Milwaukee" when going to any point in the United States or Canada. All ticket agents sell them.

For rates, pamphlets, or other information, address,

# ASTHMA CURE FREE

Asthmalene Brings Instant Relief and Permanent Cure in all Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL.  
WRITE YOUR NAME AND ADDRESS PLAINLY.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails. The Rev. C. F. Wells, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overpromised yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

REV. DR. MORRIS WECHSLER,  
Rabbi of the Cong. Bnai Israel,  
New York, Jan. 3, 1901.

Gentlemen:—Your Asthmalene is an excellent remedy for Asthma and Hay Fever, but its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful. After having it carefully analyzed, we can state that Asthmalene contains no opium, morphine, chloroform or ether. Very truly yours,  
REV. DR. MORRIS WECHSLER.

Dr. Taft Bros' Medicine Co.

Gentlemen:—I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 136th street, New York. I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease. Yours respectfully,  
O. D. PHELPS, M.D.

Dr. Taft Bros' Medicine Co.

Gentlemen:—I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since received a full-size bottle, and I am ever grateful. I have a family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit.

## The Art of Book Buying

\$1.25 Less \$1.00--25c each

The most unalloyed of all pleasures is that of reading. Reading is a delight that can be recalled at will, and when the choice of books is good there can be no sting to poison the memory of such a healthy enjoyment.

The only question that need arise is that of expense. Given the name of a first rate author, and you only need figure on what you can afford to pay for one of his best works. The International Association of Newspapers and Authors does all this for you. The co-operation of the greatest 20 writers of the day has been secured. Each has surrendered the royalties on one of his or her best works, and you can now have this selection at the actual cost of production. The authors are amply repaid in the stimulus given to the reading of their works, and you reap the present benefit.

### FIRST APPEARANCE OF The Heart of Toll

By Octavia Thanet, a novel containing the most striking character studies from life in the middle-West. Quaint humor and pathetic comedy.

A House in Bloomsbury  
By Mrs. Oliphant. This great writer describes the interesting events which brought together several families in this historical quarter to London. Their family skeletons are artfully portrayed.

### IN CLOTH, 25c
